

CK Campbell & Kennedy

Electrical maintenance

Overview

Campbell & Kennedy has a fully equipped maintenance and small works division, offering maintenance, repairs and small work services covering both planned and reactive maintenance.

We respond to over fifty thousand maintenance calls per annum at a range of properties including care homes, schools, libraries, homes, businesses, universities, student accommodation and leisure centres.

All works are carried out in line with industry standards and our electrical teams all hold NICEIC qualifications in addition to SELECT qualifications for Scotland. We cover all aspects of maintenance and repairs from additional power points to minor repairs and rewiring.
